Embra®

Caring for the future

Embra®, derived from the word “embrace” stands for a clear commitment to embrace both environmental and social sustainability. Embra® works consistently and continuously to give the world healthcare solutions that focus on lowering environmental impact, while delivering quality and performance for patients and caregivers.

Our mission is to develop responsible healthcare solutions focused on lowering the environmental impact while heightening quality for patients and caregivers. We always consider utilizing innovative processes and raw materials that enable us to reach our goals. We also hold each and every Embra® product to strong ethical codes, and to quality reviews throughout its entire value chain.

This is the Embra® way. It's our way of caring for patients, caregivers and the future

evercare®

Solutions for premium care

The evercare® brand is composed of a premium product range that delivers a comprehensive assortment of examination gloves, surgical gowns and drapes, and wound care, infusion and injection solutions. Offering premium value, more features, and high quality across the product portfolio, evercare® is driven by continuous development and innovation to treat patients with the best possible clinical solutions.

SELEFA®

Affordable solutions for care

The SELEFA® brand provides value for money through its wide range of affordable products, including examination gloves, paper and plastic consumables, non-woven products, bandages and gauze.

Development under the brands Embra®, evercare® and SELEFA® follows a quality management system with established working methods and processes according to the Medical Device Regulation (MDR).

We are powered by a commitment to meeting customer needs, undertaking extensive quality control, and investing in efforts to reduce our impact on the environment, all in the name of improved patient outcomes.
